Superintendent Evers' statement on UW System, WTCS credit transfer agreement

MADISON – State Superintendent Tony Evers issued a statement on this historic agreement reached by the University of Wisconsin System and the Wisconsin Technical College System allowing students to transfer 48 core credits within or between the two systems.

“This is a great deal for all students of Wisconsin and I would like to thank everyone that worked on it.

Seamlessness is a virtue and reaching agreement on this issue gives Wisconsin students a greater degree of certainty that the coursework they have completed will be honored throughout the UW System and the Technical College System. It is also incredibly valuable to our high school students that have used dual enrollment to access college courses and want to transfer their credits to a different institution.”
